

At the present time we have two part time workers from the New Youth Organization who assist in keeping the rooms in order and in such detail work as they are able to do.

Re-checking of the accession list, the shelf list, the card catalogue, and the books, has been done with the aid of these workers.

At present we are sorting out newspapers and inactive books to make room for those in greater demand.

Our working space is limited and requires careful management, but by its very limitations, it discourages the accumulation of worthless books - our shelves are nearly filled and in some sections crowded.

Whether or not our Library income is sufficient for great development, I believe our march is not backward but forward to a brighter future, and I urge the united effort of the "Friends of the Library" in this accomplishment.

In May, Mrs Kelly secretary of the association and the Librarian attended the North District Library meeting in Scranton which proved of great interest and it gives me pleasure to report that the next meeting of the North District will be held in Carbondale.

Respectfully,
Maudie W. Johnson
Librarian

A meeting of the Directors was held immediately after the annual meeting. Pres. Heller presiding: Minutes of a special meeting held Jan. 6-1935 were read and approved.

A report of the Librarian to the Directors was read as follows -
